**STANDARD MANDATORY MISC.
EQUIPMENT**

Tool Box containing:

- 1 - 12" adjustable wrench
- One screwdriver ¼ inch blade
- 1 #2 Phillips Screwdriver
- One hacksaw / 12' blades
- 1 10" locking grip pliers
- 1 16oz hammer
- 1 24" wrecking bar
- Impact resistant eye protection
- 1 pair of leather gloves
- 1 roll of 2" duct tape
- 1 spring loaded center punch

1 5-pound minimum fire extinguisher
with a 10BC rating in a quick-release
bracket, mounted in the cab section or an
outside compartment and accessible from
outside the ambulance.

1 2-pound minimum fire extinguisher with a 10BC rating mounted in a bracket in the patient compartment.

1 5-pound minimum fire extinguisher with a 10BC rating mounted in a bracket in the patient compartment on all new ambulances put in service after April 1, 1999.

"No Smoking" signs placed conspicuously in the cab and patient compartment.

Two portable, battery operated lights.
Three reflectors or 3 noncombustible red light sticks with a minimum of one-hour service duration.

Infection control personal protective equipment and materials, including all of the following:

Three or more eye protection units (full peripheral glasses or shield).

Three or more surgical masks.

Three or more pairs of nonsterile gloves.

3 or more jumpsuits or gowns that are disposable and impervious to body fluids.

3 or more disposable shoe covers.

Hand wash of a commercial antimicrobial type, such as a towelette, spray or liquid.

At least 1 commercial sharps container.

Bio-hazard bags of identifiable color or markings, or both.

All services shall have latex-free equipment and supplies as directed by a

protocol, approved by the services medical director for the treatment, care and used by latex-sensitive patients and attendants.

Medications and drugs specified in the standard operating procedures approved by the medical director of the service.

This shall include oral glucose in single patient use containers, and epinephrine as specified in the standard operating procedures approved by the medical director of the service, and included in the plan approved by the department of health services.

2 cervical-head immobilizer devices capable of being attached to spine boards.

The following are one patient-use items and shall remain sealed until the time of use. Unsealed containers of the following may not be kept:

Sterile saline solution.
Liquid oral glucose.
Epinephrine.
