Disclaimer: Stantec assumes no responsibility for data supplied in electronic format. The recipient accepts full responsibility for all uses, interpretations or conclusions drawn from the data and for ensuring that the data is used in accordance with all laws and regulations. This data is not intended to be legal or regulatory advice for any purpose. This data is presented "as is" and does not reflect all conditions present at the site. This data is a return of resources and activities of the wetlands identified in the field surveys and is not intended to be a comprehensive map of all wetlands in the project area. This map is intended for planning and design purposes only and does not have regulatory status.
